SUMMARY SECTION

Investment Objective

The investment objective of the Golub Group Equity Fund (the “Fund”) is to provide long-term capital appreciation. A secondary objective is to provide current income.

Fees and Expenses of the Fund

The table below describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder fees (fees paid directly from your investment)

Fee for Redemptions Paid by Wire	\$15.00
--	---------

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

Management Fees	1.00%
Distribution (12b-1) Fees ¹	0.00%
Other Expenses	0.45%
Acquired Fund Fees and Expenses	<u>0.01%</u>
Total Annual Fund Operating Expenses	1.46%
Fee Waiver/Expense Reimbursement	<u>(0.20%)</u>
Total Annual Fund Operating Expenses After Fee Waiver/ Expense Reimbursement ²	1.26%

¹ The Fund has adopted a 12b-1 Plan that permits the Fund to pay 0.25% of its average daily net assets to financial institutions that provide distribution and/or shareholder servicing. The Plan will not be activated prior to May 31, 2015.

² Annual Fund Operating Expenses After Fee Waivers/Expense Reimbursement reflects that, as of the date of this Prospectus, the Adviser has contractually agreed to waive or limit its fees and to assume other expenses of the Fund until May 31, 2015, so that Total Annual Fund Operating Expenses does not exceed 1.25%. This contractual arrangement may only be terminated by mutual consent of the Adviser and the Fund, and it will automatically terminate upon the termination of the investment advisory agreement between the Fund and the Adviser. This operating expense limitation does not apply to: (i) interest, (ii) taxes, (iii) brokerage commissions, (iv) other expenditures which are capitalized in accordance with generally accepted accounting principles, (v) other extraordinary expenses not incurred in the ordinary course of the Fund’s business, (vi) dividend expense on short sales, (vii) expenses incurred under a plan of distribution under Rule 12b-1, and (viii) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement, if applicable, incurred by the Fund in any fiscal year. The operating expense limitation also excludes any “Fees and Expense of Acquired Funds,” which are the expenses indirectly incurred by the Fund as a result of investing in money market funds or other investment companies, including ETFs, that have their own expenses. The Adviser may be entitled to the reimbursement of any fees waived or expenses reimbursed pursuant to the agreement provided overall expenses fall below the limitations set forth above. The Adviser may recoup the sum of all fees previously waived or expenses reimbursed during any of the previous three (3) years, less any reimbursement previously paid, provided total expenses do not exceed the limitation set forth above.

Expense Example:

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$128	\$495	\$886	\$1,982

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual operating expenses or in the example above, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 29.83% of the average value of its portfolio.

Principal Investment Strategies

The Fund invests primarily in common stocks that in the opinion of the Fund's adviser, the Golub Group, LLC, (the "Adviser") appear to be temporarily undervalued by the market. The Adviser focuses on businesses that have strong cash flow, solid balance sheets, a history of consistent profitability, high return on capital, and the capacity to pay and regularly increase dividends.

The Adviser considers a security to be temporarily undervalued if the security's intrinsic value as assessed by the Adviser's proprietary "Equity Research and Portfolio Implementation Process," is significantly greater than the range in which the security is trading in the securities markets. In order to implement this strategy, the Adviser will focus on large capitalization global businesses, pay strict attention to the valuation of each business, and invest for the long-term.

The Adviser will select portfolio securities after a security has passed through its "Equity Research and Portfolio Implementation Process." Typically, this process begins with quantitative screens or other idea sources that narrow the initial universe of stocks based on market capitalization, valuation metrics, return metrics, growth characteristics and financial strength.

Equity securities in which the Fund may invest include common stocks and common stock equivalents (such as rights or warrants, which give the Fund the ability to purchase the common stock, and convertible securities, which are securities that are convertible into the common stock), real estate investment trusts ("REITs"), and shares of other investment companies (including open-end and closed-end funds and exchange-traded funds ("ETFs")) whose portfolios primarily consist of equity securities. The Fund also may invest in foreign companies, either directly or through American Depositary Receipts ("ADRs"), which are receipts issued by U.S. banks for shares of a foreign corporation that entitle the holder to dividends and capital gains on the underlying security. The Fund may invest up to 20% of its net assets in cash and other cash equivalents.

The Adviser will normally seek to construct a diversified portfolio generally consisting of 30-35 securities positions.

Overpriced securities and those with deteriorating fundamentals that cannot support the current valuation of the security are candidates for sale.

Principal Risks

The principal risks of investing in the Fund are summarized below. There may be circumstances that could prevent the Fund from achieving its investment goal and you may lose money by investing in the Fund. You should carefully consider the Fund's investment risks before deciding whether to invest in the Fund.

- **Stock Market Risk.** Movements in the stock market may adversely affect the specific securities held by the Fund on a daily basis, and, as a result, such movements may negatively affect the Fund's net asset value.
- **Risk of Warrants and Rights.** A warrant or a right may become worthless unless exercised or sold before expiration. In addition, if the market price of the common stock does not exceed the exercise price during the life of the warrant or right, the warrant or right will expire worthless. Warrants and rights have no voting rights, pay no dividends and have no rights with respect to the assets of the corporation issuing them. The percentage increase or decrease in the value of a warrant or right may be greater than the percentage increase or decrease in the value of the underlying common stock.
- **Convertible Securities Risk.** The value of a convertible security is influenced by changes in interest rates, with investment value declining as interest rates increase and increasing as interest rates decline. The credit standing of the company issuing the convertible security and other factors also may have an effect on the convertible security's investment value.
- **Volatility Risk.** Common stocks tend to be more volatile than other investment alternatives. The value of an individual company can be more volatile than the market as a whole. This volatility affects the value of the Fund's shares.
- **Management Risk.** Fund management's skill in choosing appropriate investments will play a large part in determining whether the Fund is able to achieve its investment objective. To the extent appropriate investments are not chosen, the Fund may decline in value and you could lose money.
- **Growth Risk.** If the Adviser's perceptions of a company's growth potential are wrong, the securities purchased may not perform as expected, reducing the Fund's return.
- **Large Cap Risk.** Large capitalization companies tend to be less volatile than companies with smaller market capitalization. This potentially lower risk means that the Fund's share price may not rise as much as share prices of funds that focus on smaller capitalization companies.
- **Foreign Securities Risk.** There may be less information about foreign companies in the form of reports and ratings than about U.S. issuers. Foreign issuers may not be subject to uniform accounting, auditing and financial reporting requirements comparable to those applicable to U.S. issuers. Foreign markets may not be as developed or efficient as those in the United States, and there is generally less government supervision and regulation of securities exchanges, brokers and listed issuers than in the United States. Investments in foreign securities also subject the Fund to risks associated with fluctuations in currency values.
- **Sector Risk.** The Adviser may allocate more of the Fund's investments to particular segments of the market. A particular market sector can be more volatile or underperform relative to the market as a whole. To the extent that the Fund has overweighted holdings within a particular sector, the Fund is subject to an increased risk that its investments in that particular sector may decline because of changing expectations for the performance of that sector.
- **Real Estate Investment Trust (REIT) Risk.** The Fund's investments in REIT securities will expose the Fund to risks similar to those associated with direct investments in real estate, including changes in interest rates, overbuilding, increased property taxes, or regulatory actions.
- **Other Investment Company Risk.** The Fund will incur higher and duplicative expenses when it invests in mutual funds, exchange-traded funds ("ETFs"), and other investment companies. There is also the risk that the Fund may suffer losses due to the investment practices of the underlying funds.

An investment in the Fund is not a deposit at a bank and is not insured or guaranteed by any government agency.

Performance

The bar chart below shows how the Fund’s investment results have varied from year to year. The table below shows how the Fund’s average annual total returns compare over time to those of a broad-based securities market index. This information provides some indication of the risks of investing in the Fund. Past performance (before and after taxes) of the Fund is no guarantee of how it will perform in the future.

Annual Total Return (years ended December 31st)

During the period shown in the bar chart, the highest return for a quarter was 12.20% during the quarter ended March 31, 2012 and the lowest return for a quarter was (10.90%) during the quarter ended September 30, 2011. The year to date return as of March 31, 2014 was 1.12%.

Average Annual Total Returns (for the periods ended December 31, 2013)

	<u>One Year</u>	<u>Since Inception (04/01/2009)</u>
The Fund		
Before Taxes	30.22%	18.77%
After Taxes on Distributions	28.57%	17.91%
After Taxes on Distributions and Sale of Fund Shares	18.37%	15.28%
S&P 500 Index (reflects no deduction for fees, expenses, or taxes)	32.39%	21.91%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates in effect and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts (“IRAs”).

Current performance of the Fund may be lower or higher than the performance quoted above. Performance data current to the most recent month end may be obtained by calling (866) 954-6682.

Portfolio Management

Investment Adviser – Golub Group, LLC

Portfolio Management Team

- Colin Higgins, Portfolio Manager of the Fund since its inception in April 2009; President and Chief Operating Officer of the Adviser
- Kurt Hoefler, CFA, Portfolio Manager of the Fund since its inception in April 2009; Portfolio Manager, Research Analyst, and Director of Business Development of the Adviser
- John Dowling, CFA, Portfolio Manager of the Fund since its inception in April 2009; Portfolio Manager, Senior Research Analyst, and Director of Research of the Adviser

Purchase and Sale of Fund Shares

Minimum Initial Investment

\$1,000 for all account types

There is no minimum amount for subsequent investments.

To Place Buy or Sell Orders

By Mail: Golub Group Equity Fund,
Huntington Asset Services, Inc.
P.O. Box 6110
Indianapolis, IN 46206

By Phone: (866) 954-6682

You can purchase shares of the Fund through broker-dealers or directly through the Fund's transfer agent. You may sell (redeem) your shares on any day the New York Stock Exchange is open, either directly through the Fund's Transfer Agent by calling (866) 954-6682, or through your broker-dealer or financial intermediary. You may also redeem shares by submitting a written request to the address above.

Tax Information

The Fund's distributions are taxable and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred account, such as a 401(k) plan, individual retirement account (IRA) or 529 college savings plan – in a tax-deferred account, your tax liability is generally not incurred until you withdraw assets from such an account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank or trust company), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT THE FUND'S PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective

The investment objective of the Golub Group Equity Fund (the “Fund”) is to provide long-term capital appreciation. A secondary objective is to provide current income. The Fund’s investment objective is not fundamental and may be changed without shareholder approval.

Principal Investment Strategies

The Fund invests primarily in common stocks that in the opinion of the Fund’s adviser, the Golub Group, LLC, (the “Adviser”) appear to be temporarily undervalued by the market. The Adviser considers a security to be temporarily undervalued if the security’s intrinsic value as assessed by the Adviser’s proprietary “Equity Research and Portfolio Implementation Process,” which is described below, is significantly greater than the range in which the security is trading in the securities markets. In order to implement this strategy, the Adviser will focus on large capitalization global businesses, pay strict attention to the valuation of each business, and invest for the long-term.

The Adviser will select portfolio securities after a security has passed through its “Equity Research and Portfolio Implementation Process.” Typically, this process begins with quantitative screens or other idea sources that narrow the initial universe of stocks based on market capitalization, valuation metrics, return metrics, growth characteristics and financial strength. The Adviser focuses on businesses that have strong cash flow, solid balance sheets, a history of consistent profitability, high return on capital, and the capacity to pay and regularly increase dividends. The Adviser then answers the following key questions:

- What are the company’s primary risks?
- Whether the Adviser believes the company has an enduring competitive advantage?
- Is the company run by proven, competent managers?
- Does the company have attractive financial characteristics?
- Why is this idea a compelling investment?

Once a security passes this due diligence, a formal report highlighting strengths/investment rationale and weaknesses/risks and a valuation summary is presented to the Adviser’s Investment Committee. Investment decisions are made via consensus opinion of the members of the Investment Committee. The Fund’s investments will consist primarily of common stocks of companies with capitalization of greater than \$10 billion, although if a security is determined by the Adviser to be an attractive investment, capitalization will not be a limiting factor.

Under normal circumstances, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities. This investment policy may not be changed without at least 60 days prior written notice to shareholders. Equity securities in which the Fund may invest include common stocks and common stock equivalents (such as rights or warrants, which give the Fund the ability to purchase the common stock, and convertible securities, which are securities that are convertible into the common stock), real estate investment trusts (“REITs”), and shares of other investment companies (including open-end and closed-end funds and exchange-traded funds (“ETFs”)) whose portfolios primarily consist of equity securities. The Fund also may invest in foreign companies, either directly or through American Depositary Receipts (“ADRs”), which are receipts issued by U.S. banks for shares of a foreign corporation that entitle the holder to dividends and capital gains on the underlying security. ADRs are denominated in U.S. dollars, and trade on U.S. exchanges.

The Adviser will normally seek to construct a diversified portfolio generally consisting of 30-35 securities positions.

The Fund may invest up to 20% of its net assets in cash or invest in money market mutual funds or investment grade, short-term money market instruments, including U.S. government and agency securities, commercial paper, certificates of deposit, repurchase agreements and other cash equivalents. The Fund will incur duplicate management and other fees when investing in other mutual funds. By keeping cash on hand, the Fund may be able to meet shareholder redemptions without selling stocks and realizing gains and losses.

The sell decision focuses on valuation and fundamentals. The Adviser believes in buying stocks of companies that will produce favorable results over the long-term and, therefore, the Fund does not intend to purchase or sell stocks for short-term trading purposes. Overpriced securities and those with deteriorating fundamentals that cannot support the current valuation of the security are candidates for sale.

Principal Risks of Investing in the Fund

The principal risks of investing in the Fund are summarized below. There may be circumstances that could prevent the Fund from achieving its investment goal and you may lose money by investing in the Fund. You should carefully consider the Fund's investment risks before deciding whether to invest in the Fund.

- **Stock Market Risk.** Stock markets can be volatile. In other words, the prices of stocks can rise or fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions. The Fund's investments may decline in value if the stock markets perform poorly. There is also a risk that the Fund's investments will underperform either the securities markets generally or particular segments of the securities markets. The Fund's net asset value may decline as a result of this risk.
- **Risk of Warrants and Rights.** A warrant or a right gives the Fund the ability to purchase common stock at a specific price (usually at a premium above the market value of the underlying common stock at time of issuance) during a specified period of time. A warrant may become worthless unless it is exercised or sold before expiration. In addition, if the market price of the common stock does not exceed the warrant's exercise price during the life of the warrant, the warrant will expire worthless. Warrants have no voting rights, pay no dividends and have no rights with respect to the assets of the corporation issuing them. The percentage increase or decrease in the value of a warrant may be greater than the percentage increase or decrease in the value of the underlying common stock.
- **Convertible Securities Risk.** The value of a convertible security is influenced by changes in interest rates, with investment value declining as interest rates increase and increasing as interest rates decline. The credit standing of the company issuing the convertible security and other factors also may have an effect on the convertible security's investment value.
- **Volatility Risk.** Common stocks tend to be more volatile than other investment alternatives. The value of an individual company can be more volatile than the market as a whole. This volatility affects the value of the Fund's shares.
- **Management Risk.** The Adviser's strategy may fail to produce the intended results. The Adviser's skill in choosing appropriate investments will play a large part in determining whether the Fund is able to achieve its investment objective. If the Adviser's projections about the prospects for a security are not correct, such errors in judgment by the Adviser may result in significant investment losses. Although the Adviser has experience managing discretionary accounts, the Adviser has no prior experience managing a mutual fund.
- **Growth Risk.** The Fund invests in companies that appear to be growth-oriented companies. Growth companies are companies that the Adviser believes will have revenue and earnings that grow faster than the economy as a whole, offering above-average prospects for capital appreciation. If the Adviser's perceptions of a company's growth potential are wrong, the securities purchased may not perform as expected, reducing the Fund's return.

- **Large Cap Risk.** Large capitalization companies tend to be less volatile than companies with smaller market capitalization. This potentially lower risk means that the Fund's share price may not rise as much as share prices of funds that focus on smaller capitalization companies.
- **Foreign Securities Risk.** The Fund may invest in foreign securities, including ADRs. Foreign securities are subject to additional risks not typically associated with investments in domestic securities. These risks may include, among others, country related risks including political, diplomatic, regional conflicts, terrorism, war, social and economic instability, currency devaluations, and policies restricting the movement of assets; different trading practices; less government supervision; less publicly available information; limited trading markets; and greater volatility. Investments in foreign securities also subject the Fund to risks associated with fluctuations in currency values.
- **Sector Risk.** Although the Adviser does not expect to concentrate the Fund's investments in any particular sector, the Adviser may allocate more of the Fund's investments to particular segments of the market. A particular market sector can be more volatile or underperform relative to the market as a whole. To the extent that the Fund has overweighted holdings within a particular sector, the Fund is subject to an increased risk that its investments in that particular sector may decline because of changing expectations for the performance of that sector.
- **Real Estate Investment Trust (REIT) Risk.** The Fund's investments in REIT securities will expose the Fund to risks similar to those associated with direct investments in real estate, including changes in interest rates, overbuilding, increased property taxes, or regulatory actions.
- **Other Investment Company Risk.** When the Fund invests in other investment companies, such as other mutual funds or ETFs, it indirectly bears its proportionate share of any fees and expenses payable directly by the other investment company. Therefore, the Fund will incur higher expenses, many of which may be duplicative. In addition, the Fund may be affected by losses of the underlying funds and the level of risk arising from the investment practices of the underlying funds (such as the use of derivatives by the funds). ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price above or below its net asset value; (ii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Fund has no control over the risks taken by the underlying funds in which it invests.

An investment in the Fund is not a deposit of any bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

As with any mutual fund investment, the Fund's returns will vary and you could lose money.

Temporary Defensive Positions

From time to time, the Fund may take temporary defensive positions that are inconsistent with its principal investment strategies, in attempting to respond to adverse market, economic, political or other conditions. In such instances, the Fund may hold up to 100% of its assets in cash; short-term U.S. government securities and government agency securities; investment grade money market instruments; investment grade fixed income securities; repurchase agreements; commercial paper and cash equivalents. The Fund may invest in the securities described above at any time to maintain liquidity, pending selection of investments by the Adviser, or if the Adviser believes that sufficient investment opportunities that meet the Fund's investment criteria are not available. By keeping cash on hand, the Fund may be able to meet shareholder redemptions without selling securities and realizing gains and losses. As a result of engaging in these temporary measures, the Fund may not achieve its investment objective.

Is the Fund right for you?

The Fund may be suitable for:

- long-term investors seeking a fund with an investment objective of long-term capital appreciation
- investors seeking an investment that will provide moderate current income
- investors willing to accept price fluctuations in their investment.

Information about the Fund's policies and procedures with respect to disclosure of the Fund's portfolio holdings is included in the Statement of Additional Information.

HOW TO BUY SHARES

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account. This means that when you open an account, we will ask for your name, residential address, date of birth, government identification number and other information that will allow us to identify you. We may also ask to see your driver's license or other identifying documents, and may take additional steps to verify your identity. If we do not receive these required pieces of information, there may be a delay in processing your investment request, which could subject your investment to market risk. If we are unable to immediately verify your identity, the Fund may restrict further investment until your identity is verified. However, if we are unable to verify your identity, the Fund reserves the right to close your account without notice and return your investment to you at the NAV determined on the day in which your account is closed. If we close your account because we are unable to verify your identity, your investment will be subject to market fluctuation, which could result in a loss of a portion of your principal investment.

The minimum initial investment in the Fund is \$1,000 for all account types. The Adviser may, in its sole discretion, waive this minimum for accounts participating in an automatic investment program and in certain other circumstances. The Fund may waive or lower investment minimums for investors who invest in the Fund through an asset-based fee program made available through a financial intermediary. If your investment is aggregated into an omnibus account established by an investment adviser, broker or other intermediary, the account minimums apply to the omnibus account, not to your individual investment. The financial intermediary may also impose minimum requirements that are different from those set forth in this Prospectus. If you choose to purchase or redeem shares directly from the Fund, you will not incur charges on purchases and redemptions. However, if you purchase or redeem Shares through a broker-dealer or another intermediary, you may be charged a fee by that intermediary.

Initial Purchase

By Mail – To be in proper form, your initial purchase request must include:

- a completed and signed investment application form; and
- a personal check with name pre-printed (subject to the minimum amount) made payable to the Fund.

Mail the application and check to:

U.S. Mail:

Golub Group Equity Fund
c/o Huntington Asset Services, Inc.
P.O. Box 6110
Indianapolis, Indiana 46206-6110

Overnight:

Golub Group Equity Fund
c/o Huntington Asset Services, Inc.
2960 N. Meridian Street, Suite 300
Indianapolis, Indiana 46208

By Wire – You may also purchase shares of the Fund by wiring federal funds from your bank, which may charge you a fee for doing so. To wire money, you must call Shareholder Services at (866) 954-6682 to obtain instructions on how to set up your account and to obtain an account number.

You must provide a signed application to Huntington Asset Services Inc., the Fund’s transfer agent, at the above address in order to complete your initial wire purchase. Wire orders will be accepted only on a day on which the Fund and its custodian and transfer agent are open for business. A wire purchase will not be considered made until the wired money is received and the purchase is accepted by the Fund. The purchase price per share will be the net asset value next determined after the wire purchase is accepted by the Fund. Any delays, which may occur in wiring money, including delays that may occur in processing by the banks, are not the responsibility of the Fund or the transfer agent. There is presently no fee for the receipt of wired funds, but the Fund may charge shareholders for this service in the future.

Additional Investments

You may purchase additional shares of the Fund at any time by mail, wire, or automatic investment. Each additional mail purchase request must contain:

1. Your name
2. The name on your account(s)
3. Your account number(s)
4. A check made payable to Golub Group Equity Fund

Checks should be sent to the Fund at the address listed under the heading “Initial Purchase – By Mail” in this Prospectus. To send a bank wire, call Shareholder Services at (866) 954-6682 to obtain instructions.

Distribution Plan

The Fund has adopted a plan under Rule 12b-1 of the 1940 Act that allows the Fund to pay distribution fees for the sale and distribution of its shares and allows the Fund to pay for services provided to Fund shareholders (the “12b-1 Plan”). The 12b-1 Plan allows shareholders of the Fund to pay annual 12b-1 expenses of 0.25%. Over time, 12b-1 fees will increase the cost of your investment and may cost you more than paying other types of sales charges because these fees are paid out of the Fund’s assets on an on-going basis. The Trust and the Distributor have agreed to waive the 12b-1 fees, and the 12b-1 Plan is currently not active.

Automatic Investment Plan

You may make regular investments in the Fund with an Automatic Investment Plan by completing the appropriate section of the account application or completing a systematic investment plan form with the proper signature guarantee and attaching a voided personal check. Investments may be made monthly to allow dollar-cost averaging by automatically deducting \$100 or more from your bank checking account. You may change the amount of your monthly purchase at any time. If an Automatic Investment Plan purchase is rejected by your bank, your shareholder account will be charged a fee to defray bank charges.

Tax Sheltered Retirement Plans

Shares of the Fund may be an appropriate investment for tax-sheltered retirement plans, including: individual retirement plans (IRAs); simplified employee pension plans (SEPs); 401(k) plans; qualified corporate pension and profit-sharing plans (for employees); tax deferred investment plans (for employees of public school systems and certain types of charitable organizations); and other qualified retirement plans. You should contact Shareholder Services at (866) 954-6682 for the procedure to open an IRA or SEP plan, as well as more specific

information regarding these retirement plan options. Please consult with an attorney or tax adviser regarding these plans. You must pay custodial fees for your IRA by redemption of sufficient shares of the Fund from the IRA unless you pay the fees directly to the IRA custodian. Call Shareholder Services about the IRA custodial fees at (866) 954-6682.

Other Purchase Information

The Fund may limit the amount of purchases and refuse to sell shares to any person. If your check or wire does not clear, you will be responsible for any loss incurred by the Fund. You may be prohibited or restricted from making future purchases in the Fund. Checks should be made payable to the Fund. The Fund and its transfer agent may refuse any purchase order for any reason. Cash, third party checks (except for properly endorsed IRA rollover checks), counter checks, starter checks, traveler's checks, money orders, credit card checks, and checks drawn on non-U.S. financial institutions will not be accepted. Cashier's checks and bank official checks may be accepted. In such cases, a fifteen (15) calendar day hold will be applied to the funds, (which means that you may not receive proceeds from your redeemed shares until the holding period has expired).

The Fund has authorized certain broker-dealers and other financial institutions (including their designated intermediaries) to accept on its behalf purchase and sell orders. The Fund is deemed to have received an order when the authorized person or designee accepts the order, and the order is processed at the net asset value next calculated thereafter. It is the responsibility of the broker-dealer or other financial institution to transmit orders promptly to the Fund's transfer agent.

HOW TO REDEEM SHARES

You may receive redemption payments by check or federal wire transfer. The proceeds may be more or less than the purchase price of your shares, depending on the market value of the Fund's securities at the time of your redemption. If you redeem your shares through a broker/dealer or other financial institution, you may be charged a fee by that institution. You should consult with your broker-dealer or other financial institution for more information on these fees.

By Mail – You may redeem any part of your account in the Fund at no charge by mail. Your request should be addressed to:

U.S. Mail:

Golub Group Equity Fund
c/o Huntington Asset Services, Inc.
P.O. Box 6110
Indianapolis, Indiana 46206-6110

Overnight:

Golub Group Equity Fund
c/o Huntington Asset Services, Inc.
2960 N. Meridian Street, Suite 300
Indianapolis, Indiana 46208

Your request for a redemption must include your letter of instruction, including the Fund name, account number, account names, the address, and the dollar amount or number of shares you wish to redeem. Requests to sell shares that are received in good order are processed at the net asset value next calculated after the Fund receives your order in proper form. To be in good order, your request must be signed by all registered share owner(s) in the exact name(s) and any special capacity in which they are registered. The Fund may require that signatures be guaranteed if you request the redemption check be made payable to any person other than the shareholder(s) of record or mailed to an address other than the address of record, or if the mailing address has been changed within 30 days of the redemption request. The Fund may also require a signature guarantee for redemptions of \$50,000 or more. Signature guarantees are for the protection of shareholders. You can obtain a signature guarantee from most banks and securities dealers, but not from a notary public. All documentation requiring a signature guarantee must utilize a New Technology Medallion Stamp. For joint accounts, both signatures must be guaranteed. Please call Shareholder Services at (866) 954-6682 if you have questions. At the

discretion of the Adviser or the transfer agent, the signature guarantee requirements may be modified or waived, and you may be required to furnish additional legal documents to insure proper authorization.

By Telephone – You may redeem any part of your account (up to \$50,000) in the Fund by calling Shareholder Services at (866) 954-6682. You must first complete the optional Telephone Redemption section of the investment application to institute this option. The Fund, and its transfer agent and custodian are not liable for following redemption or exchange instructions communicated by telephone to the extent that they reasonably believe the telephone instructions to be genuine. However, if they do not employ reasonable procedures to confirm that telephone instructions are genuine, they may be liable for any losses due to unauthorized or fraudulent instructions. Procedures employed may include recording telephone instructions and requiring a form of personal identification from the caller.

The Fund or its transfer agent may terminate the telephone redemption procedures at any time. During periods of extreme market activity, it is possible that shareholders may encounter some difficulty in telephoning the Fund, although neither the Fund nor the transfer agent has ever experienced difficulties in receiving and in a timely fashion responding to telephone requests for redemptions or exchanges. If you are unable to reach the Fund by telephone, you may request a redemption or exchange by mail.

By Wire – A wire transfer fee of \$15 is charged to defray custodial charges for redemptions paid by wire transfer. This fee is subject to change. Any charges for wire redemptions will be deducted from your Fund account by redemption of shares.

Redemptions in Kind

The Fund does not intend to redeem shares in any form except cash. However, if the amount you are redeeming is over the lesser of \$250,000 or 1% of the Fund's net asset value, the Fund has the right to redeem your shares by giving you the amount that exceeds the lesser of \$250,000 or 1% of the Fund's net asset value in securities instead of cash. In the event that an in-kind distribution is made, a shareholder may incur additional expenses, such as the payment of brokerage commissions, on the sale or other disposition of the securities received from the Fund.

Fund Policy on Market Timing

The Fund discourages market timing and does not accommodate frequent purchases and redemptions of Fund shares by Fund shareholders. Market timing is an investment strategy using frequent purchases, redemptions and/or exchanges in an attempt to profit from short-term market movements. Market timing can result in dilution of the value of Fund shares held by long-term shareholders, disrupt portfolio management and increase Fund expenses for all shareholders. The Board of Trustees has adopted a policy directing the Fund to reject any purchase order with respect to any investor, a related group of investors or their agent(s), where it detects a pattern of purchases and sales of the Fund that indicates market timing or trading that it determines is abusive. This policy generally applies to all Fund shareholders.

While the Fund attempts to deter market timing, there is no assurance that the Fund will be able to identify and eliminate all market timers. For example, omnibus accounts typically provide the Fund with a net purchase or redemption request on any given day where purchasers and redeemers of Fund shares are netted against one another and the identities of individual purchasers and redeemers whose orders are aggregated is not known by the Fund. Despite the Fund's efforts to detect and prevent abusive trading activities, it may be difficult for the Fund to identify such activity in certain omnibus accounts traded through financial intermediaries since the Fund may not have knowledge of the identity of individual investors and their transactions in such accounts. Under a federal rule, the Fund is required to have an agreement with many of its intermediaries obligating the intermediaries to provide, upon the Fund's request, information regarding the intermediaries' customers and their transactions. However, there can be no guarantee that all excessive, short-term or other abusive trading activities

will be detected, even if such an agreement is in place. Certain intermediaries, in particular retirement plan sponsors and administrators, may have less restrictive policies regarding short-term trading. The Fund reserves the right to reject any purchase order for any reason, including purchase orders that it does not think are in the best interest of the Fund or its shareholders, or if the Fund thinks that trading is abusive. The Fund has not entered into any arrangements with any person to permit frequent purchases and redemptions of Fund shares.

Additional Information

If you are not certain of the requirements for a redemption please call Shareholder Services at (866) 954-6682. Redemptions specifying a certain date or share price cannot be accepted and will be returned. You will be mailed the proceeds on or before the fifth business day following the redemption. However, payment for redemption made against shares purchased by check will be made only after the check has been collected, which normally may take up to fifteen calendar days. Also, when the New York Stock Exchange is closed (or when trading is restricted) for any reason other than its customary weekend or holiday closing or under any emergency circumstances, as determined by the Securities and Exchange Commission, the Fund may suspend redemptions or postpone payment dates. You may be assessed a fee if the Fund incurs bank charges because you request that the Fund re-issue a redemption check.

Redemption proceeds sent via check by the Fund and not cashed within 180 days will be reinvested in the Fund at the current day's NAV. Redemption proceeds that are reinvested are subject to the risk of loss like any other investment in the Fund.

Because the Fund incurs certain fixed costs in maintaining shareholder accounts, the Fund may redeem all of your shares in the Fund on 30 days' written notice if the value of your shares in the Fund is less than \$1,000 due to redemption, or such other minimum amount as the Fund may determine from time to time. You may increase the value of your shares in the Fund to the minimum amount within the 30 day period. All shares of the Fund also are subject to involuntary redemption if the Board of Trustees determines to liquidate the Fund. In such event, the Board may close the Fund with notice to shareholders but without obtaining shareholder approval. An involuntary redemption will create a capital gain or capital loss, which may have tax consequences about which you should consult your tax adviser.

DETERMINATION OF NET ASSET VALUE

The price you pay for your shares is based on the Fund's net asset value per share ("NAV"). The Fund's NAV is calculated at the close of trading (normally 4:00 p.m. Eastern time) on each day the New York Stock Exchange ("NYSE") is open for business (the Stock Exchange is closed on weekends, most federal holidays and Good Friday). The Fund's NAV is calculated by dividing the value of the Fund's total assets (including interest and dividends accrued but not yet received) minus liabilities (including accrued expenses) by the total number of shares outstanding. Requests to purchase and sell shares are processed at the NAV next calculated after the Fund receives your order in proper form. In the event, the Fund holds portfolio securities that trade in foreign markets or that are primarily listed on foreign exchanges that trade on weekends or other days when the Fund does not price its shares, the net asset value of the Fund's shares may change on days when shareholders will not be able to purchase or redeem the Fund's shares.

The Fund's assets generally are valued at their market value. If market prices are not readily available (including when they are not reliable), or if an event occurs after the close of the trading market but before the calculation of the NAV that materially affects the values, assets may be valued at a fair value, pursuant to guidelines established by the Board of Trustees. For example, the Fund may be obligated to fair value a foreign security because many foreign markets operate at times that do not coincide with those of the major U.S. markets. Events that could affect the values of foreign portfolio holdings may occur between the close of the foreign market and the time of determining the NAV, and would not otherwise be reflected in the NAV. When

pricing securities using the fair value guidelines established by the Board of Trustees, the Fund (with the assistance of its service providers) seeks to assign the value that represents the amount that the Fund might reasonably expect to receive upon a current sale of the securities. In this regard, the Adviser assists the Fund in the valuation process by providing pricing information that the Adviser reasonably believes may assist in the determination of fair value consistent with requirements under the 1940 Act and the Fund's valuation procedures.

Notwithstanding the foregoing, given the subjectivity inherent in fair valuation and the fact that events could occur after NAV calculation, the actual market prices for a security may differ from the fair value of that security as determined by the Fund at the time of NAV calculation. Thus, discrepancies between fair values and actual market prices may occur on a regular and recurring basis. These discrepancies do not necessarily indicate that the Fund's fair value methodology is inappropriate. The Fund will adjust the fair values assigned to securities in the Fund's portfolio, to the extent necessary, as soon as market prices become available. The Fund (and its service providers) continually monitors and evaluates the appropriateness of its fair value methodologies through systematic comparisons of fair values to the actual next available market prices of securities contained in the Fund's portfolio. To the extent the Fund invests in other mutual funds, the Fund's NAV is calculated based, in part, upon the net asset values of such mutual funds; the prospectuses for those mutual funds in which the Fund will invest describe the circumstances under which those mutual funds will use fair value pricing, which, in turn, affects their net asset values.

DIVIDENDS, DISTRIBUTIONS AND TAXES

Dividends and Distributions. The Fund typically distributes to its shareholders as dividends substantially all of its net investment income and any realized net capital gains. These distributions are automatically reinvested in the Fund unless you request cash distributions on your application or through a written request to the Fund. The Fund expects that its distributions will consist primarily of income and net realized capital gains. The Fund declares and pays dividends at least annually. Net investment income distributed by the Fund generally will consist of interest income, if any, and dividends received on investments, less expenses. The dividends you receive, whether or not reinvested, will be taxed as ordinary income except as described below.

Unless you indicate another option on your account application, any dividends and capital gain distributions paid to you by the Fund automatically will be invested in additional shares of the Fund. Alternatively, you may elect to have: (1) dividends paid to you in cash and the amount of any capital gain distributions reinvested; or (2) the full amount of any dividends and capital gain distributions paid to you in cash. The Fund will send dividends and capital gain distributions elected to be received as cash to the address of record or bank of record on the applicable account. Your distribution option will automatically be converted to having all dividends and other distributions reinvested in additional shares if any of the following occur:

- Postal or other delivery service is unable to deliver checks to the address of record;
- Dividend and capital gain distribution checks are not cashed within 180 days; or
- Bank account of record is no longer valid.

Dividend and capital gain distribution checks issued by the Fund that are not cashed within 180 days will be reinvested in the Fund at the current day's NAV. When reinvested, those amounts are subject to risk of loss like any other investment in the Fund.

Selling shares (including redemptions) and receiving distributions (whether reinvested or taken in cash) usually are taxable events to the Fund's shareholders. These transactions typically create the following tax liabilities for taxable accounts:

Summary of Certain Federal Income Tax Consequences. The following information is meant as a general summary of the federal income tax provisions regarding the taxation of the Fund's shareholders. Additional tax information appears in the SAI. Shareholders should rely on their own tax adviser for advice about the federal, state, and local tax consequences to them of investing in the Fund.

The Fund expects to distribute all or substantially all of its net investment income and net realized gains to its shareholders at least annually. Shareholders may elect to take dividends from net investment income or capital gain distributions, if any, in cash or reinvest them in additional Fund shares. Although the Fund will not be taxed on amounts it distributes, shareholders will generally be taxed on distributions, regardless of whether distributions are paid by the Fund in cash or are reinvested in additional Fund shares. Distributions to non-corporate investors attributable to ordinary income and short-term capital gains are generally taxed as ordinary income, although certain income dividends may be taxed to non-corporate shareholders as qualified dividend income at long-term capital gains rates provided certain holding period requirements are satisfied. Distributions of long-term capital gains are generally taxed as long-term capital gains, regardless of how long a shareholder has held Fund shares. Distributions may be subject to state and local taxes, as well as federal taxes.

The Fund may invest in foreign securities against which foreign tax may be withheld. If more than 50% of the Fund's assets are invested in foreign ETFs or index mutual funds at the end of the year, the Fund's shareholders might be able to claim a foreign tax credit with respect to foreign taxes withheld.

Taxable distributions paid by the Fund to corporate shareholders will be taxed at corporate tax rates. Corporate shareholders may be entitled to a dividends received deduction ("DRD") for a portion of the dividends paid and designated by the Fund as qualifying for the DRD provided certain holding period requirements are met.

In general, a shareholder who sells or redeems Fund shares will realize a capital gain or loss, which will be long-term or short-term depending upon the shareholder's holding period for the Fund shares, provided that any loss recognized on the sale of Fund shares held for six months or less will be treated as long-term capital loss to the extent of capital gain dividends received with respect to such shares. An exchange of shares may be treated as a sale and any gain may be subject to tax.

The Fund may be required to withhold U.S. federal income tax (presently at the rate of twenty-eight percent (28%)) on all taxable distributions payable to shareholders who fail to provide the Fund with their correct taxpayer identification numbers or to make required certifications, or who have been notified by the Internal Revenue Service that they are subject to backup withholding. Backup withholding is not an additional tax; rather, it is a way in which the Internal Revenue Service ensures it will collect taxes otherwise due. Any amounts withheld may be credited against a shareholder's U.S. federal income tax liability.

Shareholders should consult with their own tax adviser to ensure that distributions and sales of Fund shares are treated appropriately on their income tax returns.

Federal law requires that mutual fund companies report their shareholders' cost basis, gain/loss, and holding period to the Internal Revenue Service on the Fund's shareholders' Form 1099-B when "covered" securities are sold. Covered securities are any regulated investment company and/or dividend reinvestment plan shares acquired on or after January 1, 2012.

The Fund has chosen average cost as the standing (default) tax lot identification method for all shareholders. A tax lot identification method is the way the Fund will determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Fund's standing tax lot identification method is the method covered shares will be reported on your Form 1099-B if you do not select a specific tax lot identification method. You may choose a method different than the Fund's standing method and will be able to do so at the time of your purchase or upon the sale of covered shares. Please refer to the appropriate Internal Revenue Service regulations or consult your tax advisor with regard to your personal circumstances.

For those securities defined as “covered” under current Internal Revenue Service cost basis tax reporting regulations, the Fund is responsible for maintaining accurate cost basis and tax lot information for tax reporting purposes. The Fund is not responsible for the reliability or accuracy of the information for those securities that are not “covered.” The Fund and its service providers do not provide tax advice. You should consult independent sources, which may include a tax professional, with respect to any decisions you may make with respect to choosing a tax lot identification method.

MANAGEMENT OF THE FUND

Adviser. Golub Group, LLC, 1850 Gateway Drive, Suite 100, San Mateo, CA 94404, serves as investment adviser to the Fund. The Adviser has overall supervisory management responsibility for the general management and investment of the Fund’s portfolio. The Adviser was formed in 2003 by Michael Golub, who previously served as Chief Executive Officer. The Golub Group serves high net-worth individuals and institutional clients, and as of December 31, 2013, had assets under management of approximately \$995 million. The Golub Group is controlled by Colin Higgins, President and Chief Operating Officer, and Kurt Hoefer, Director of Business Development.

The Fund is required to pay the Adviser a fee equal to 1.00% of the Fund’s average daily net assets. A discussion of the factors that the Board of Trustees considered in approving the Fund’s advisory agreement will be contained in the Fund’s semi-annual report for the fiscal period ended July 31, 2014. The Adviser has contractually agreed to waive or limit its fees and to assume other expenses of the Fund until May 31, 2015, so that Total Annual Fund Operating Expenses does not exceed 1.25%. This contractual arrangement may only be terminated by mutual consent of the Adviser and the Fund, and it will automatically terminate upon the termination of the investment advisory agreement between the Fund and the Adviser. This operating expense limitation does not apply to: (i) interest, (ii) taxes, (iii) brokerage commissions, (iv) other expenditures which are capitalized in accordance with generally accepted accounting principles, (v) other extraordinary expenses not incurred in the ordinary course of the Fund’s business, (vi) dividend expense on short sales, (vii) expenses incurred under a plan of distribution under Rule 12b-1, and (viii) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement, if applicable, incurred by the Fund in any fiscal year. The operating expense limitation also excludes any “Fees and Expense of Acquired Funds,” which are the expenses indirectly incurred by the Fund as a result of investing in money market funds or other investment companies, including ETFs, that have their own expenses. The Adviser may be entitled to the reimbursement of any fees waived or expenses reimbursed pursuant to the agreement provided overall expenses fall below the limitations set forth above. The Adviser may recoup the sum of all fees previously waived or expenses reimbursed during any of the previous three (3) years, less any reimbursement previously paid, provided total expenses do not exceed the limitation set forth above. During the fiscal year ended January 31, 2014, the Fund paid the Adviser a management fee equal to 0.80% of the Fund’s average daily net assets, after fee waivers and reimbursement.

If you invest in the Fund through an investment adviser, bank, broker-dealer, 401(k) plan, trust company or other financial intermediary, the policies and fees for transacting business may be different than those described in this Prospectus. Some financial intermediaries may charge transaction fees and may set different minimum investments or limitations on buying or selling shares. Some financial intermediaries do not charge a direct transaction fee, but instead charge a fee for services such as sub-transfer agency, accounting and/or shareholder services that the financial intermediary provides on the Fund’s behalf. This fee may be based on the number of accounts or may be a percentage of the average value of the Fund’s shareholder accounts for which the financial intermediary provides services. The Fund may pay a portion of this fee, which is intended to compensate the financial intermediary for providing the same services that would otherwise be provided by the Fund’s transfer agent or other service providers if the shares were purchased directly from the Fund. To the extent that these fees are not paid by the Fund, the Adviser may pay a fee to financial intermediaries for such services.

To the extent that the Adviser, not the Fund, pays a fee to a financial intermediary for distribution or shareholder servicing, the Adviser may consider a number of factors in determining the amount of payment associated with such services, including the amount of sales, assets invested in the Fund and the nature of the services provided by the financial intermediary. Although neither the Fund nor the Adviser pays for the Fund to be included in a financial intermediary's "preferred list" or other promotional program, some financial intermediaries that receive compensation as described above may have such programs in which the Fund may be included. Financial intermediaries that receive these types of payments may have a conflict of interest in recommending or selling the Fund's shares rather than other mutual funds, particularly where such payments exceed those associated with other funds. The Fund may from time to time purchase securities issued by financial intermediaries that provide such services; however, in selecting investments for the Fund, no preference will be shown for such securities.

Portfolio Managers. The Adviser utilizes a team approach in managing the Fund. The members of the Adviser's Investment Committee are jointly responsible for making the investment decisions for the Fund, and decisions are made by consensus opinion.

Colin Higgins — President and Chief Operating Officer of the Adviser. Mr. Higgins has over 16 years of investment analysis, equity research and portfolio management experience. As president of the Golub Group, he directs all business and investment activities for the firm. Prior to joining the firm in 2003, Mr. Higgins served as a research analyst and portfolio manager with regional investment firms Hoefer & Arnett, Inc. from 1998 to 2003, and Branch, Cabell & Co. from 1996 to 1998. He is a 1994 graduate of Washington & Lee University.

Kurt Hoefer, CFA — Portfolio Manager, Research Analyst, and Director of Business Development of the Adviser. Mr. Hoefer has over 20 years of investment analysis, equity research and portfolio management experience. Prior to joining the Golub Group in 2004, he founded and built Hoefer Capital Management, LLC to counsel families and individuals on investment and financial matters. He served as that firm's President from 2002 to 2004. He served as an Investment Banker with Thomas Weisel Partners, LLC from 2000 to 2002, and with Bank of America Securities, LLC from 1995 to 2000. Mr. Hoefer received his MBA from the UCLA-Anderson School of Management in 1994 and his Bachelor of Arts in Economics from Stanford University in 1987. In addition, he achieved the Chartered Financial Analyst designation in 1991.

John Dowling, CFA — Portfolio Manager, Senior Research Analyst, and Director of Research of the Adviser. Mr. Dowling has over 13 years of experience in securities and financial analysis. Prior to joining the Golub Group, he was a generalist analyst covering North American markets for Peters MacGregor Capital Management, a value investment firm headquartered in Australia, from 2004 to 2006. He also served as a Senior Valuation Associate at Standard & Poor's from 1999 to 2004. Mr. Dowling received a Bachelor of Arts in Business Economics from the University of California at Santa Barbara in 1998, and achieved the Chartered Financial Analyst designation in 2003.

The Fund's SAI provides additional information about the Fund's portfolio managers, including their compensation structure, other accounts managed, and ownership of shares of the Fund.

FINANCIAL HIGHLIGHTS

The following table is intended to help you better understand the financial performance of the Fund since its inception. Certain information reflects financial results for a single Fund share. Total return represents the rate you would have earned (or lost) on an investment in the Fund, assuming reinvestment of all dividends and distributions. The information for the years ended January 31, 2014, 2013 and 2012 has been audited by Cohen Fund Audit Services, Ltd., Independent Registered Public Accounting Firm, whose report, along with the Fund's financial statements, is included in the Fund's annual report to shareholders. The prior years' information was audited by the Fund's former Independent Registered Public Accounting Firm. The annual report is available from the Fund upon request without charge.

- (a) For the period from April 1, 2009 (Commencement of Operations) to January 31, 2010.
- (b) Net investment income per share is calculated by dividing net investment income by the average shares outstanding throughout the period.
- (c) Distributions to shareholders resulted in less than \$0.005 per share.
- (d) Total return in the above table represents the rate that the investor would have earned or lost on an investment in the Fund, assuming reinvestment of distributions.
- (e) Not annualized.
- (f) Annualized.

FOR MORE INFORMATION

You can find additional information about the Fund in the following documents:

Annual and Semi-Annual Reports: While this Prospectus describes the Fund's potential investments, the Annual and Semi-Annual Reports detail the Fund's actual investments as of their report dates. The Annual report includes a discussion by Fund management of recent market conditions, economic trends, and investment strategies that significantly affected Fund performance during the reporting period.

Statement of Additional Information (SAI): The SAI supplements the Prospectus and contains detailed information about the Fund and its investment restrictions, risks, policies, and operations, including the Fund's policies and procedures relating to the disclosure of portfolio holdings by the Fund's affiliates. A current SAI for the Fund is on file with the Securities and Exchange Commission and is incorporated into this Prospectus by reference, which means it is considered part of this Prospectus.

How to Obtain Copies of Other Fund Documents

You can obtain free copies of the current SAI and the Fund's Annual and Semi-Annual Reports, and request other information about the Fund or make shareholder inquiries, in any of the following ways:

You can get free copies of the current Annual and Semi-Annual Reports, as well as the SAI, by contacting Shareholder Services at (866) 954-6682. You may also request other information about the Fund and make shareholder inquiries. The Fund does not currently maintain a website from which the SAI or the Annual and Semi-Annual Reports can be downloaded. The requested documents will be sent within three business days of receipt of the request.

You may review and copy information about the Fund (including the SAI and other reports) at the Securities and Exchange Commission ("SEC") Public Reference Room in Washington, D.C. Call the SEC at 1-202-551-8090 for room hours and operation. You may also obtain reports and other information about the Fund on the EDGAR Database on the SEC's Internet site at <http://www.sec.gov>, and copies of this information may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing the SEC's Public Reference Section of the SEC, Washington, D.C. 20549-1520.

Investment Company Act #811-22208
